Dan,

Thank you so much for the class. You gave each and everyone one of us a real life look into the responsibility and ramifications of legally carrying a gun. I am very glad to have chosen your class, and am getting my wife signed up for the next class. I really enjoyed your frankness and no nonsense approach. I definitely would like to advance my training with you.

Thank you for asking about my son yesterday.

I will keep checking your website for available training dates for myself.

Again, thank you for such awesome training.

Danny Beck
