Dan-

I wanted to thank you again for my recent Ohio CCW training. I have a Masters degree and played Division I college football, so I am familiar with high-quality coaching and educational experiences, and your class certainly ranks highly on both counts. While I have great respect for the various gun enthusiasts, military veterans, and NRA trainers who conduct firearms courses, there is plainly no suitable alternative to learning from OPOTA-certified staff who use the same courses and methods for training our law enforcement officers. I consider your course mandatory for anyone who owns or shoots a handgun.

Thanks,

Bob Becker
Green, Ohio
