

D&D Firearms Instructors, LLC
Attention: Daniel Clevenger
Dear Dan:

Having recently received my Ohio CCW *renewal* after the completion of your Concealed Carry course at Pro Armament in Cuyahoga Falls in December, 2009, I simply wanted to extend my thanks to you once again for providing such an informative and enjoyable Classroom and Range experience.

As you may remember, I had initially received my CCW training from *[OMITTED NAME]* in Portage County about five years ago. Because I foolishly opted not to renew my Ohio License to Carry a Concealed Handgun prior to its expiration, I was required to again complete the mandatory training as required by the State of Ohio when, after service on a Jury for a Criminal Case in October, 2009, I again realized the importance of being prepared to "expect the unexpected" and felt the need to carry a concealed handgun. Even though I was initially annoyed with myself for having let the license expire, perhaps it was a blessing in disguise, because I feel fortunate to have discovered both your class and you as an instructor. Both the instruction provided and the information presented in your class was **FAR SUPERIOR** to what I received within my first course of instruction. I especially appreciated the in-depth look at both the legal ramifications and responsibilities of being a CCW license holder, as well as the broad range of firearms topics covered.

I am looking forward to Spring and the opportunity of scheduling one of your Advanced Shooting Classes, of which I plan to attend.

Regards,
John Green
