Dan,

My wife Terri and I took your class yesterday. We both came away feeling so privileged to have you as an instructor. Your thought provoking style of teaching, combined with your accounts of real life situations made a real impact on both of us. You brought into crystal clear focus why CC is so important, but yet such a serious undertaking. As novice shooters, we have made a decision to obtain additional training to understand our hand guns, how to properly shoot, and become proficient in this craft. Please let me know what class you recommend we take next, and we will.

Many thanks again.

David S. Hart (and Terri)

Construction Manager
Municipal Service Group
